Our training and certification is regulatory compliant with the most current regulations and standards. Courses are provided either at our sites or on worksites all around the country. Our various safety courses help to ensure safe and effective workplaces.

### **Reasons to Train the Trainer**

At times the best alternative for training workers is to engage the services of someone or contract with outside training providers. Nevertheless, there are compelling reasons to think about sending workers to Train the Trainer programs. Your company could benefit by making the most out of your investment. Teaching an existing staff person to train other workers is less expensive than engaging the services of somebody new. Businesses should avoid expecting people to take on trainer duties on top of their existing responsibilities. The designated trainer must be relieved of some of their duties in order to prevent trainer burnout.

Developing internal training resources helps to empower your company, encourage staff to be self-reliant and increase its resources. With an in-house trainer, other staff members could feel more comfortable learning new skills than they would with somebody new. By internally training, new staff can quickly be trained and brought up to speed on the machinery in case of employees turnover.
