

## **Clark Forklift**

Performing worldwide, there are currently 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those operating in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique designs of lift trucks, with components covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is now a customary feature on every forklift.

Clark has a uncompromising mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

### **Supply Efficient Production**

Clark has preferred the particularly economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This structure was developed to acknowledge the most effective approaches of production plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### **Engine Design**

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The contemporary value engineering program combines innovative product improvement and provides improved consumer support and service within the industry.
